

**Time
to re-open,**

safely.

**Let's restart shopping,
safely in
three simple steps.**

**To use this kit
you need a color printer and
if possible, a laminator.**

**Print only the white pages, the signals.
If possible laminate and stick on the ground.**

**Each signal must be placed
two meters distant from the other.**

We use a mix of text, emoji and colours to make this kit understandable by everyone.

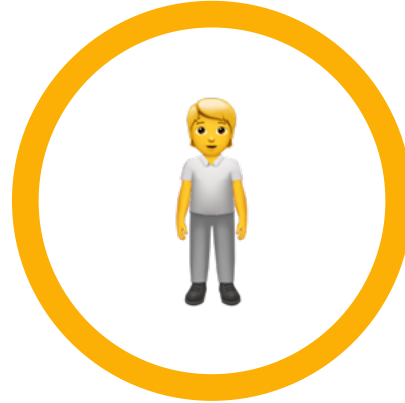

This project is being translated in many languages so when people travel will know what to do keeping everyone safe.

Stop

**and read
what to do**

Wait

**the person before
moves ahead**

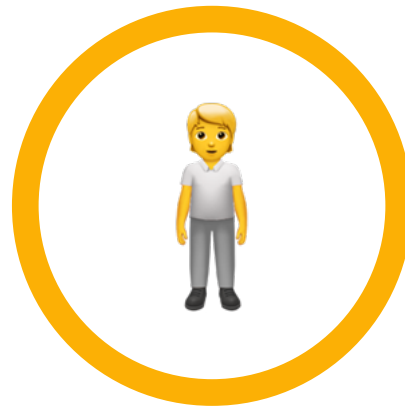

Walk

and don't stop

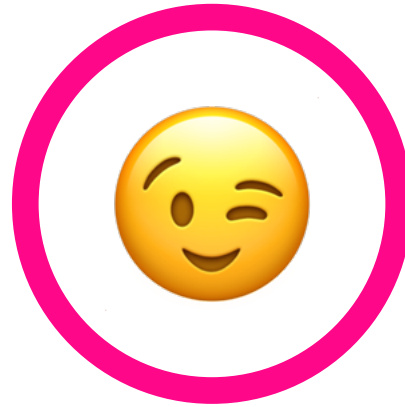

Respect the distance

Wait in your circle

Let us recognise you

**Removing the mask
only on one side**

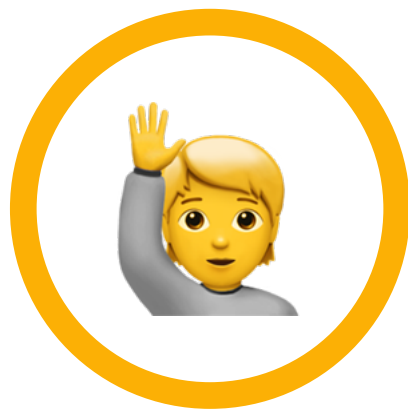

This signal is for banks, jewelers and secure areas only.

Use the sanitiser

to clean your hands

Tell us what you need

remaining in your circle

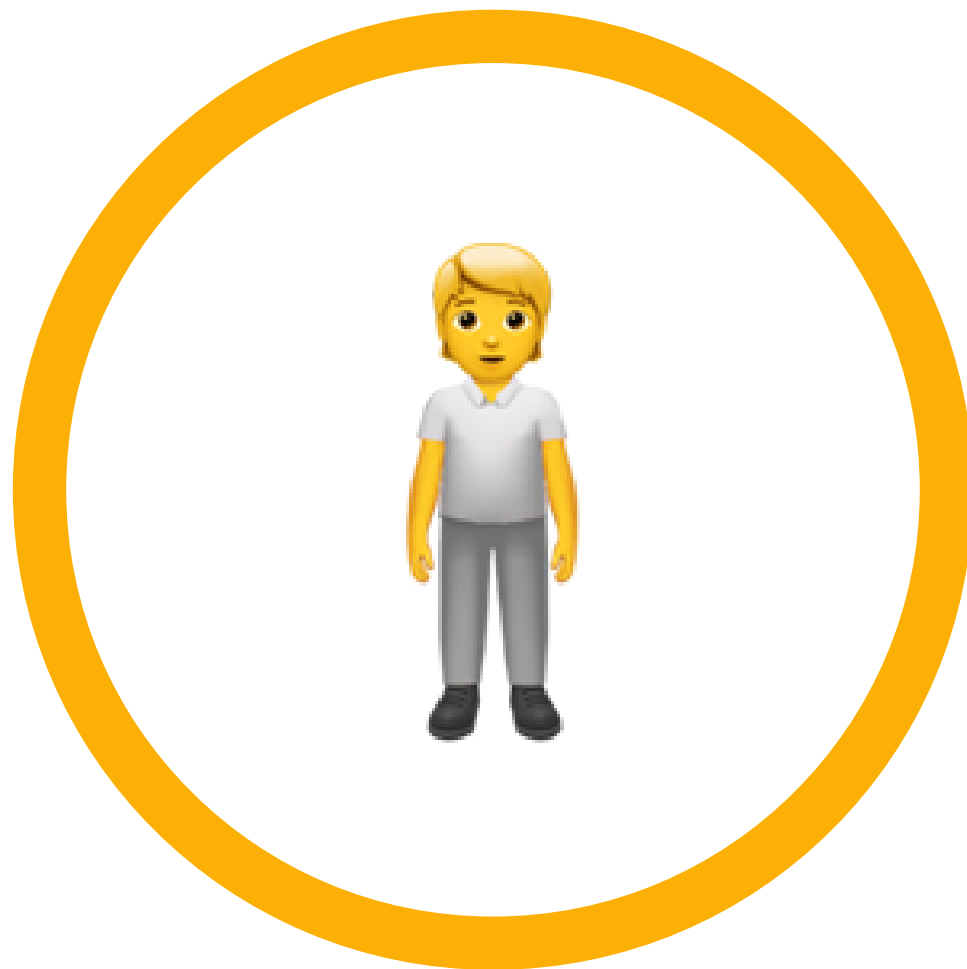

We accept only cards

to avoid any contact

Walk

Wait

Stop and read

Pay with card
